- Opportunities for real-time feedback and early integration with Army decision-makers

Dedicated Concierge Service

- Assistance to guide private industry through scheduling and execution process
- Non-traditional defense firms with no prior government experience welcome

TESTRANGE.ARMY.MIL

TEST ON ARMY RANGES

The U.S. Army is opening premier military test ranges for the use of private industry to conduct their internal research and development. This effort aims to accelerate the delivery of advanced capabilities to warfighters by providing industry partners with streamlined access to realistic, specialized test environments.
